1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 01/25/06 has been entered.

2. The following is an examiner's statement of reasons for allowance: The prior art fails to suggest and/or teach a system and method for determining a patient's motor threshold level for transcranial magnetic stimulation including a sensing device to detect a change in the patient's condition indicative of motor threshold and a detector to determine if the change in the patient's condition is induced by a stimulation signal. The prior art also fails to suggest and/or teach a system and method for determining the appropriate stimulation location including a probe that measures the depth of cortical tissue; a detector responsive to stimulation signals and measurement signals from the probe to determine neuronal excitability and a processor to determine the cortical depth and a treatment stimulation level based upon the measured parameters.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
